

# TeleScript AV<sup>TM</sup> v.2

*Next-generation Professional Prompting*

for **Windows 2000<sup>®</sup> & XP<sup>®</sup>**

*New features in Version 2!*

- **Multi-script runlist**
- **Advanced printing suite**
- **On-screen timer**
- **Word processor file import**
- **Improved preferences**
- **Smooth mouse scrolling**

## **Improved File Management**

**TeleScript AV** now gives you the ability to import script files from any program your computer supports - such as Word<sup>™</sup>, WordPerfect<sup>™</sup>, or HTML. And with the new Runlist mode, order your script files and switch between them with the click of a button.

## **Brand New Functionality**

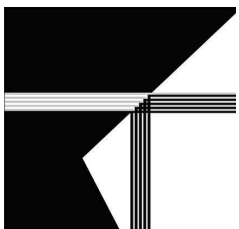

**TeleScript AV** is packed with brand new features: an on-screen script Timer; a fully customizable Toolbar; dialog edit and prompt control; advanced custom print with preview; network connect with remote update capability; paragraph properties; and more!

## **Extended Familiar Features**

Improvements to existing commands such as Find & Replace with custom attributes, font selection, text and background color handling, and extensive user preferences make **TeleScript AV** more usable and productive than ever before.

## **You're In Total Control**

**TeleScript AV**'s super-smooth scrolling prompter may now be controlled with several new devices, including third-party peripherals (such as the Griffin PowerMate), on-screen controls, a wheel mouse, or the TeleScript serial hand control (pictured below.)
