Interface with satellite trucks for live remote broadcasts
Setup and operate large format audio console and multi channel RF mic systems for production of live webcasts, townhalls, and corporate meetings

SUMMARY

I have been working in professional audio since 1988 – first as a music producer/remixer and then as a sound mixer for broadcast production. I have worked on documentaries, commercials, corporate videos, medical videos, industrials, video news releases, live television remotes, webcasts, and news gathering productions.
